Subject: Microsoft/ Settlement in the Courts under the Turney Act;

The Contribution that Microsoft has made to the Computer Industry over the Years, has been phenominal. Todays Computer expertise by millions would not have happened if there had not been a system that had some continuity to it, and kept it as simple as possible.

Therefore. I hope that the powers to be will accept the present settlement that is being offered, and get on with teaching more people to utilize the computer and its many many advantages. Please settle now, this has gone on for 4 years too many.

Thank you for listening. D Noe.
